Read the following passage and mark the letter A, B, C, or D on your answer sheet to indicate the correct answer to each of the questions that follow.

(46) Are you frustrated by your rebellious teenage son? Are you dealing with a misbehaving teenage daughter?

You are not alone. Millions of parents are in the same boat. The chaos your child is causing can be resolved as long as you stick to the following principles. First, get to know the causes of your child's rebellion. It may be

as simple as a natural part of adolescent development as your child is learning necessary behavioural and social skills. Knowing this means you will be more understanding toward your teenage rebel, and you will be able to actively help your child. Sometimes, with this knowledge in mind, you will even calmly ignore certain minor misbehaviours and these tolerances help improve the relationship with your child. Second, work with your child to establish certain rules and consequences. It is essential that these boundaries be the joint product of parents and the child. More importantly, **they** must be enforced strictly and consistently. Third, maintain open communication among family members. Instead of dictating orders or advice, **(49) you need to take on the role of sympathetic listeners.** After all, your child needs to get off their worries and pressure off their chest. Being a good listener also gives you more insight into your child and his/her problems. Last but not least, seek for professional help. A one-hour consultation will equip you with updated information and methods to be confident on the journey of helping your child.
